ADVISOR/OFFICE HOURS

Our university has an advisory teacher for each grade so that students and faculty can have as much contact as possible, talk to each other amicably, achieve educational results, and lead a smooth student life. They will be a good person to talk to about the various problems and worries you will face as you continue your university life and will give you appropriate advice. In addition, to help students deepen their interactions with faculty, we have set aside a particular day and time (office hours) a week and opened a room after school.
